

Work to be undertaken at home over the course of this week. Each day will consist of one English activity, one Maths activity and other tasks that should be completed during the week. You can find all the resources you need for these activities by clicking on the [blue hyperlinks](#).

This week, I will be in school so if you need to get hold of me for anything then remember that you can reach me via email or by contacting the school office.

Remember to access [Epic! Books](#) (remember our class code is icj7874) and [Prodigy Maths](#), using the login details on your emails. I can see lots of us are accessing these but I want to see the class racing up the leaderboard! Additional activities can be found on [Busy Things](#), [Education City](#), [PurpleMash](#) and [First News](#). [Audible](#) is also currently free for children and has some fantastic audiobooks.

If you have anything you would like to share then you can send it to me by [email](#) or post it on our PurpleMash blog.

Remember to check your LGfL email everyday for our daily class challenge.

Monday	Challenge	Email your teacher and tell them what your favourite thing about last week was.
	Maths	How can I read different scales? (1) Read through the textbook chapter to understand how we measure mass using scales, including those with missing intervals. You can either complete the workbook questions in your green book or print the questions out and answer them straight on the page.
	English	Can I identify the features of a diary entry? We will remind ourselves of the purpose of a diary entry before reading through a model text, based on 'The Owl Who Was Afraid of the Dark' and naming and identifying the different features that Plop included in his diary.
	History	What was life in Roman Britain like? We will remind ourselves about what we have learned so far about the Roman invasion and settlement of Britain before exploring about what life was like in the country during this time. We will create questions about this historical period and then use different sources to try and find the answers to these.
	Physical Activity	Try out this Elsa work out to get your heart beating and blood pumping and celebrate Frozen 2 being on Disney+.
Tuesday	Challenge	Check your email for today's challenge.
	Maths	How can I read different scales? (2) Read through the textbook chapter to remind yourself about what we have learnt about different scales to measure mass and discover how we can use the markings to find midpoints between intervals. You can either complete the workbook questions in your green book or print the questions out and answer them straight on the page.
	English	How can I improve a diary entry? We will remind ourselves of what a diary entry is and the different language and structural features they include. Then we shall evaluate a diary entry, identifying the different features we have learned about, before we redraft and improve it.
	RE	How can we help others?

		We will learn that each of us has special gifts that God has provided us with to help others. We will learn about the life of Gemma Galgani and her journey to sainthood. Finally, we will think about why Gemma Galgani became a saint and how we can live our lives in her example.
	Physical Activity	Create your own film theme PE routine, like yesterday's Elsa exercises. Create 5 activities that can be done easily in a small space while making sure that your heart rate increases. Which superhero will you use and how can we see the character through the exercises you create?
Wednesday	Challenge	Check your email for today's challenge.
	Maths	How can I convert between units of mass? Read through the textbook chapter to discover the relationship between kilograms and grams and learn how we can convert between these different measurements. You can either complete the workbook questions in your green book or print the questions out and answer them straight on the page. Your answers will be put online tomorrow.
	English	Can I write a diary entry in character? We will recap on what we have learned about diary entries and apply this as we select a chapter from 'The Owl Who Was Afraid of the Dark' to retell as a diary entry as Plop.
	Physical Activity	How can I perform stretches? Find yourself somewhere peaceful to do some yoga. Why not convince the others in your house to practice alongside you and create some calm in your busy day? Try out Mr Hoppit the Hare from Cosmic Kids. This was the very first Cosmic Yoga ever did with a class!
	Challenge	Check your email for today's challenge.
Thursday	Maths	How can I compare masses? Read through the textbook chapter to remind yourself of the relationship between kilograms and grams and how we can convert between these units before we apply our understanding to use our greater than (>), less than (<) and equal to (=) symbols to compare and order masses. You can either complete the workbook questions in your green book or print the questions out and answer them straight on the page. Your answers will be put online tomorrow.
	English	How can I generate ideas for a new chapter? We will remind ourselves of the story of 'The Owl Who Was Afraid of the Dark' and the structure of each of the chapters. We will use these plot points that form each chapter to help generate ideas for a new 'Dark is...' chapter.
	Science	How can I carry out a scientific investigation? What is the purpose of a scientific investigation? We will try and answer this question by carrying out our very own scientific investigation at home. You will find a huge selection of different experiments on the site so select the one you like the look of, follow the instructions and email your thoughts or post them on our class blog.
	Physical Activity	Play Simon Says with your family. You must choose activities that get your heartbeat raised. You could do jumping, skipping, hopping

		and dancing. Can you share your activities and put them on the blog?
<u>Friday</u>	Challenge	Check your email for today's challenge. How do I add and subtract masses? We will recap on our work understanding mass and converting between different units before we apply this understanding to problems involving adding and subtracting different masses. You can either complete the workbook questions in your green book or print the questions out and answer them straight on the page. Your answers will be put online tomorrow.
	Maths	
	English	How do I use direct speech punctuation? We will read an extract of 'The Owl Who Was Afraid of the Dark' and identify examples of direct speech from the text. We will identify and name the different punctuation used to make direct speech and learn when and where we should use this punctuation in our own writing. Finally, we will create our own examples of accurately punctuated direct speech to use in our narrative writing.
	Art	How do I create an illustration in the style of an illustrator? Rob Biddulph has illustrated some of my favourite bed time stories. Select one of his tutorials and recreate one of the great pictures that he is demonstrating how to draw. Once you've completed it remember to share your artwork on our class blog!
	Physical Activity	Today you need to create a sporting activity that can be carried out in your house using things that are readily available to all. Devise the rules to your new sporting activity, such as keepy-ups with a rolled-up pair of socks, and teach it to someone else.
